

# ASCO Survey on COVID-19 in Oncology Registry

This REDCap data capture form is for collecting data on cancer patients with active cancer and those being treated in the adjuvant setting. It should be used for submitting data on cancer patients with confirmed infection of SARS-CoV-2 and for follow-up information on patient outcomes.

**Thank you for contributing data to the ASCO Survey on COVID-19 Oncology Registry.**

**We can only accept data from practices that have a Data Use Agreement with ASCO. Data entered without a Data Use Agreement will be immediately deleted from the registry. If your practice does not have a signed data use agreement with ASCO to contribute to the A.S.C.O. Registry, please contact [centra@asco.org](mailto:centra@asco.org).**

Name of Practice:

Five digit zip code of oncology practice where patient is being treated

\_\_\_\_\_

Patient's date of birth (MM-DD-YYYY)

\_\_\_\_\_

Five digit zip code of patient's primary residence.

\_\_\_\_\_

Are you entering baseline information on a patient, or follow-up information?

- This is the initial data entry for this patient, which includes demographic information plus COVID-19 and cancer status.
- I am entering follow-up information on a patient whose baseline information is already captured in the A.S.C.O. Registry.

Has the patient for whom you are entering data had a confirmed case of COVID-19 (i.e., positive test for SARS-CoV-2)?

- Yes
- No

What is the patient's cancer status?

- The patient has active cancer
- The patient is disease-free but is receiving adjuvant therapy within 1 year following surgical resection (excluding hormonal treatments)
- Neither of the above

## Which of the following type of follow-up data are you entering?

Check at least one

Follow-up information on a patient's COVID-19 condition or treatment

Follow-up information on a patient's cancer condition or treatment

Information on the patient's death
